

# A Course on Case Management Best Practice using InterRAI in Long Term Care

**Time:** Aug 31 (Saturday), 9:00 AM- 12:30 PM  
Sep 1 (Sunday), 9:00 AM – 12:30 PM

**Mode of Attendance:** Online (via Zoom)

**Delivery Language:** English

**Target Audience:** This course is applicable to ALL managerial and frontline service providers (i.e., social workers, nurses, allied healthcare professional) from all long-term care settings such as community, day care and long-term care facilities. The course is also open to the general public who are interested in learning about professional development in long-term care services.

**Course Fee:** Free

- The course is designed to provide professional staff with an in-depth understanding of interRAI from international experiences and improve skills to implement interRAI in the long-term care setting.
- After completion of the course, attendees are expected to confidently apply interRAI assessment tools in their daily work and introduce the benefit of interRAI to their colleagues.

## About the course

## Speaker
